LOOK MAGNIFICENT

CosMedix Facial Treatments

Signature Medi Eye Treatment

This is a calming and soothing customised eye treatment which uses our Opti Crystal Eye Serum. It provides deep hydration and radically reduces the look of dark circles. Alternatively, our Eye Genius Complex is fantastic for puffiness and dark circles to combat the effects of sleep deprivation which contributes to ageing, causing fine lines. This treatment includes a pressure point and eye drainage massage that soothes heavy and tired eyes.

Who's it for?

All essential eye treatment that benefits every eye concern even the most sensitive of eyes.

Blueberry Smoothie Infusion Peel

CosMedix Blueberry Smoothie is part L-Lactic Acid peel and part manual scrub. The Blueberry Smoothie treatment gently buffs and polishes the skin, helping to soften and smooth rough, uneven skin texture, which leaves the skin with an even, balanced complexion and a dramatically smoother texture. CosMedix Blueberry Smoothie is an antioxidant resurfacing treatment comparable to a micro-dermabrasion with added benefits. It has the same resurfacing action but instead of relying on physical abrasion, uses chirally correct L-Lactic Acid and fruit enzymes to soften the skin. This enables the jojoba beads to gently buff away debris and dead surface cells, whilst infusing the skin with antioxidants from real blueberries.

Who's it for?

All Skin Types / All Fitzpatrick Types
Acne Grades I-II
Sun Damaged Skin
Dull Skin
Uneven Skin Texture

60 mins | £75.00

Pomegranate Infusion Peel

CosMedix Pomegranate Peel is an antioxidant resurfacing treatment that contains 15% L-Lactic Acid plus fruit enzymes and Pomegranate Seed Oil. It's designed to gently exfoliate surface skin cells and pore-clogging impurities, while infusing the skin with antioxidants including Resveratrol and Green Tea Extract. CosMedix Pomegranate Peel includes purified Chirally Correct L-Lactic acid and fruit enzymes. L-Lactic Acid has a larger molecular size and is self neutralising, therefore is much easier to tolerate than glycolic acid peels. The CosMedix Pomegranate Peel is therefore suitable for all skin types including more sensitive skins. The addition of antioxidants makes it a superior choice to traditional chemical peels, instead of simply exfoliating the skin with acids. The CosMedix Pomegranate Peel infuses the skin with antioxidants to help nourish and protect the skin.

LM Beauty Exclusive Facials

Blueberry Boost Facial

Blueberry Boost Facial is a combination of Dermaplaning, a highly effective physical exfoliation that removes vellus facial hairs, and dead skin cells. As part of this indulgent facial a Lymphatic Drainage Massage is performed, that detoxifies and stimulates the circulation. CosMedix Blueberry Smoothie Infusion Peel is part L-Lactic Acid peel and part manual scrub. It gently buffs and polishes the skin, helping to soften and smooth rough, uneven skin texture, which leaves the skin with an even, balanced complexion and a dramatically smoother texture. This fantastic treatment is enhanced with our internationally acclaimed Celluma LED light therapy.
